

Lumber Price List

Wood Werks Supply is your source for the highest quality domestic and imported hardwoods in the area. You'll find that our prices are the best too. Most of our hardwood is kiln-dried, planed to thickness, and can be straight-line ripped to your specifications. Each piece is clearly labeled and displayed standing on end ready for your inspection. No surprises, just the best lumber around. By the board, or by the truckload... We can meet your lumber needs.

All lumber prices shown are per board foot, surfaced two sides unless noted, net dry tally.

What is a 'Board Foot'?

Hardwood lumber is typically sold by the board foot, a unit of value equivalent to a board that is one inch thick, one foot wide and one foot long, or 144 cubic inches. Use the formula below:

$$\text{length}'' \times \text{width}'' \times \text{thickness}'' \div 144 = \text{bdft}$$

*When calculating lumber needs, don't forget to figure 15% to 20% additional due to waste.

Plywood

& Fabrication Supply Prices

Domestic Plywood

Veneer-core	1/4" 3-PLY	1/2" 5-PLY	3/4" 7-PLY

Okoume BS 1088	\$115	\$149	\$189	\$239	\$359

The **BS 1088** specification is a marine plywood specification that applies to plywood produced with untreated tropical hardwood veneers that have a set level of resistance to fungal attack. The piles are bonded with WBP glue. The initials BS stand for "British Standard". This standard is associated with Lloyd's of London who performs testing of products to this standard.
